# Neutrino Presentations for Summer Students

**Fermilab Summer 2010**

Neutrino University (NeutU) is a series of informal, informative, and interactive presentations for summer students in the Fermilab Neutrino Program (Minerva, MiniBooNE, Minos, MicroBooNE, and Nova). These presentations are intended to introduce students to some of the important ideas and experiments of neutrino physics, particularly those that are running or under construction at Fermilab.

Presentation V:

**Joe Grange, University of Florida**

**Experiments I: MiniBooNE**

**West Wing (WH10W) 5:30 PM Thursday July 15**

**Refreshments at 5 PM**

### **Future talks:**

July 22: TBA: Experiments II: MINOS

July 29: Ben Ziemer: Experiments III: Minerva

August 5: Nate Mayer: Experiments IV: Nova

August 12: Josh Spitz: Experiments V:  
ArgoNeut/MicroBooNE
